

From Copilot champion to agentic delivery at scale

Owned the arc from first proof of concept to a platform the business runs on every day.

01 Prove it

Sep 2024

GitHub Copilot adoption champion, FCM

Jan 2025

Principal Engineer, Agent-Centric QA PoC

Mar 2025

PoC demonstrated to multiple executives

02 Build the bench

Apr 2025

TCOO-wide Agentic AI training, first batch of 30

Apr 2025

Formed the team; automation-at-scale path for QA

Jun 2025

JAD use case: design to MRM governance

Jun–Jul 2025

Coached 7 engineers — 3 freshers, 4 from UiPath

03 Into production

Aug 2025

IC to engineering leader, 15-member team

Dec 2025

Agentic QA live in production, 2 use cases

Jan 2026

DART document processing, next best action and translation platform — idea to product

04 Scale and standardise

Feb–Mar 2026

O2A ideation; architecture presented to Tata

May 2026

Agentic QA rebuilt for scale — 130 reviews

Jul 2026

AI-DLC Champion for TCOO; production demo to David Owen; O2A live in Wholesale

Aug–Sep 2026

KnowledgeBase-AIDLC to Tiago and Shan; semantic data layer to Bridget

Making the AI-DLC case in public, ahead of consensus

50+ talks across the AWS community — patterns pressure-tested on stage before they reach the bank.

01 AWS Summit Bengaluru

Jun 2025

Markdown-based context offloading, presented before the industry adopted it

Later demonstrated by Claude and taken up broadly.

02 Data/AI Day, Bengaluru

Oct 2025

AWS Kiro: The Agentic IDE Revolution in Software Development
Spec-driven development, co-presented with Raja SP, Head of DevAx APJ, AWS.

03 AWS re:Invent

Dec 2025

Speaker on the international stage
A second session accepted for re:Invent 2026.

04 AWS Hero Summit

Aug 2026

Ideated KnowledgeBase AI-DLC, on the DataOps Labs thesis: the goal is not more AI
Reviewed the AI-DLC book by Bhuvana S, co-speaker at re:Invent 2025 and 2026.

The community work is not a side activity. It is where the AI-DLC patterns get pressure-tested a year before the bank needs them.
